

Abdominoplasty	\$9900+
plus liposuction of one area	\$2500 +
Mini Abdominoplasty	\$6500+
plus liposuction of one area	\$1500 - \$2500

Whats the difference between a full abdominoplasty and a mini?

With a mini TT you may not have to tighten the muscle, the scar may be smaller, and the umbilicus is not repositioned.

Usually the lower abdomen is tightened and many may need a combination of liposuction and skin tightening. Quicker recovery

Blepharoplasty (Eyelid Surgery)	
Upper under local anesthetic	\$3,000
Upper and lower under general anesthetic	\$9,000

Brachioplasty (armlift)	\$9,000
-------------------------	---------

Breast Augmentation	
with smooth round cohesive gel implants	\$8,000
Breast Augmentation with fat transfer	\$9,000
Breast Augmentation with a lift	\$13000+
Breast Augmentation Revision	
(initial surgery not done by Dr. Tumi)	\$9000+

Breast Lift	\$8,500
-------------	---------

Fat Transfer to face	\$2500 - \$6000
----------------------	-----------------

Facelift	\$15,000 +
----------	------------

Liposuction	fees vary significantly
	depending on the amount of work and candidate

One area	\$5,000
Additional Area	\$1000 - \$6500

Most popular liposuction areas:	
Chin or Neck	\$3500+
Abdomen and Flanks	\$6000+
braline	\$2500 in addition to a reduction

Necklift	\$ 9000 +
----------	-----------

Thigh Lift	\$9,000
------------	---------

Rhinoplasty	\$10,000 +
-------------	------------
